

Migratory Birds

If we have input ^{array} - [1, 1, 2, 2, 4, 4, 4, 4, 5]

same if we have. $1, 2, 2, 4, 4, 4, 4, 5$
 \uparrow $\underbrace{\hspace{1.5cm}}$
 min. max.

Ques If $s = '12:01:00'$

Return as $'2:01:00'$ but we have to add 45 min & 45 sec
in result and output will $'2:46:45'$

func processTime {
var input;
if (input == 'PM')
